Vehicle Description

Porsche 911 Turbo 996 series, production year: 2001 Incredibly low original kilometers: just 68.000!!! This particular car is a very rare specification of Porsche 996 – powerful Turbo version in Speed Yellow paint. The vehicle is in exeptionally good condition, with perfect black leather interior. Recent price growth of the 996 generation makes buying this rare and well maintained car a good investment. Full books documentation since first registration. Why should you buy a car imported from Japan? Here's why: First of all for Japanese people owning a car with a steering wheel on a "wrong" side is a symptom of luxury and prestige. Secondly – they just love their cars and are pedantic about keeping them in a mint condition. Thirdly – driving a left-hand drive car on japanese streets is uncomfortable. This results in a very low mileage, since the cars are usually driven only at car shows and on short weekend rides. Last but not least...
