Full books documentation since first registration. Why should you buy a car imported from Japan? Here's why: First of all for Japanese people owning a car with a steering wheel on a "wrong" side is a symptom of luxury and prestige. Secondly – they just love their cars and are pedantic about keeping them in a mint condition. Thirdly – driving a left-hand drive car on japanese streets is uncomfortable. This results in a very low mileage, since the cars are usually driven only at car shows and on short weekend rides. Last but not least – for a Japanese owner it's a matter of honor to service, maintain and sell the car properly! That's why KIMBEX Dream Cars prefer to offer you cars imported from Japan...
